

Pioneers and Early Settlers of Pine Mountain

This research list includes families who came to Pine Mountain and the surrounding areas in early times and up to abt 1900.

The original inhabitants of the Pine Mountain area are recognised as the Ugarapul Tribal Group. As the area around Ipswich was opened up to settlement in 1842, the first to go to 'The Mountain' were the timbergetters. As well as the settlers of the area, there are many individuals and families who came to the area and moved on as they took up land in other areas. There are a number of readings and early maps of the area which show land holdings and have been very useful in identifying the pioneers and earlysettlers.
